

Opioid Addiction and Overdose Addressing a Quiet Epidemic

Tuesday, February 26, 11:30 am - 1:00 pm

Perry Memorial Library

205 Breckenridge St, NC Henderson

Please join us for a special **Free lunch and learn** event to discuss how one of the leading causes of accidental deaths is impacting our community, and how **you** can make a difference.

Audience: Professionals working in behavioral health, public health, medicine, education, law enforcement, and social services, as well as members of the general public.

Free lunch with RSVP by Feb.22. Please respond to mark.sullivan@duke.edu
(Space is limited)

Brought to you by: Cardinal Innovations Healthcare Solutions, Northern Piedmont Community Care, and Project Lazarus.

Questions? Contact Gina DeMent at 252-430-3031 gina.dement@cardinalinnovations.org
or Mark Sullivan at 919-627-7595 or mark.sullivan@duke.edu

The Project Lazarus model is based on the premises that drug overdose deaths are preventable and that all communities are ultimately responsible for their own health.
